Dear Harold:

The events of the past few weeks have really been fantastic. In my own personal case, I have now left Touche Ross and have started my own company called Personal Data Services. I've moved out of the U. Club and now live about ½ mile from my fiance in Hartsdale. So with all of this I just haven't had time to write.

Jones told me you were in town. I'm sorry we missed. I would like to hear your opinion about the three bibelings. I'm convinced that the same group arranged for all three and are now plotting the next one which will be McCarthy if he gains a few more delegates and has any chance at all of being nominated. You have no doubt seen his letter to Steve Burton and his more recent interview with the Los Angeles Free Press just two days before the RFK assassination.

I have written to him warning him of the danger, but I'm not sure he'll believe me, or that he'll even receive the letter. I'm convinced that Frenchy, one of the three tramps, shot King and that Galt-Ray, while he may have been there, did not. Perhaps either Ray or Sirhan will talk before the "group" is able to kill them.

I'm sure they will try to eliminate both. What do you know, or what have you heard? Is there any possibility that Sirhan can be linked to the Los Angeles members of the "group"?

Bring me up to date on everything. By the way, I have never heard from your friend who has my Alyea film. I would like to get it back soon.

Regards
Dick
